Example plan: Map

This map is more detailed than it needs to be, however it is designed to demonstrate how you can order and connect stages of your argument. You can easily juxtapose the introduction with the conclusion; are they related to one another in this case? The person symbol in some sections represents the reading this student chose to reference. Is the balance appropriate or does this material overwhelm rather than support this writer's argument? You can note page numbers as you plan to speed up the referencing process later.
